

# THE PIG-near Bath - Walk 1

## A jolly nice walk

Approx. 4 miles (90 minutes)

Walk down the drive and turn left down the road and walk for approx. 5 minutes.

After the entrance for the Fishing Lake there is a Public Footpath, go through the kissing gate following the arrow. Go straight ahead keeping the lakes on your left.

Keep going ahead until you reach Hunstrete Plantation, go through the gate. There is a path going left, straight, and right. Take the path going left.

Follow the forest track for 5 minutes. You then approach the corner of our deer park on your left and as you keep walking straight you will see The Hide and then THE PIG. Carry along the track until you reach the stile and climb over. Cross over the road heading towards the Public Footpath sign on the other side slightly to your right. Climb over the stile.

Turn right following the edge of the field and continue around the perimeter heading towards the woods. Once at the top of the field there are beautiful views.

Head over the stile into the woods and follow track straight ahead up the hill until you reach the field. Go through the kissing gate.

Bear to the right of the field so you briefly follow the Three Peaks Walk. Head towards the next kissing gate which has a large slab of concrete in front of it and go through it. Turn left and follow the edge of the field and you will see a gate which leads onto a dirt track.

From here to your right you can see the Three Peaks.

Once you have left the field and come to the dirt track you need to go left. While walking along this track you can see the village of Farmborough to your right. You will then come to a farm and approach a crossroads. Continue straight ahead.

The track then breaks out into a road, bear right along the road looking out for a Public Footpath sign which will be on your left. Cross the road go through the kissing gate into the field heading straight over towards the next gate.

Cross the road and go through the next gate, turn left and follow the edge of the field.

There will be a gate going into the woods, head through the woods and through the gate on the other side. Turn left following the path along the trees, keep going until you reach a tunnel of trees going right down the hill. This leads into a field where you need to turn left and follow the edge. You will then come to a metal gate on your left which should be open. If not then you can climb over. If you look left you will see the entrance to THE PIG-near Bath. Head straight up the hill and turn right into the drive.
